

Events in the allotment garden museum Leipzig

Due to the Corona virus crisis, events can be cancelled, please check.

Highlights in 2020

The allotment gardeners' museum in Leipzig is unique in the world as a special museum of cultural history with various forms of presentations. In the classical exhibition the historical development of the small gardens is shown. The three show gardens, however, convey a very practical impression. The central location and the authentically location in the middle of the listed allotment garden site additionally create a special atmosphere.

Also in 2020 with a varied programme we invite you to visit the museum and experience the history of the allotment gardens.
