

## **France : Vitry- sur- Seine (Val-de-Marne)**

### **A walking circuit through allotment gardens**

There are numerous allotment sites in the wonderful park of 34 hectares belonging to the local authorities („Conseil Général“). In cooperation with the local authorities, the French allotment garden federation, the French gas network (GrDF) and the national federation for cycle tourism are working towards the creation of a walking circuit through the allotment gardens. A meeting took place in September 2012 so as to be ready to start as soon as in Spring 2013.

The regional committee for tourism, which we contacted, seems to be very interested and will spread this information in its yearly review on extraordinary sites to be visited in the Val-de-Marne.

Michèle Roncin, Responsible for the allotment gardens around Paris, French allotment garden federation
