

## Netherlands: School Garden Action Month

*School Garden Month: May 9-31.*

"Every Child has a school garden." Sowing, tending and harvesting fruits and vegetables themselves.

With this mission, *Alliantie School Tuinen* (School Garden Alliance) was founded last year.

*Alliantie School Tuinen* works to ensure that every child has a school garden during their elementary school years.

Research shows that teachers think school gardens are important and they want to start! Unfortunately, only less than half have access to a school garden. In addition, teachers need support, knowledge and skills.

Get information about the campaign and support opportunities here.
