

The Office International du Coin de Terre et des Jardins Familiaux calls upon all the European allotment gardeners to take part in the pesticide action week from 20th till 30th March 2014

The International Office du Coin de Terre et des Jardins Familiaux calls upon all European Allotment gardeners to stop using pesticides and to replace them by alternative solutions.

Pesticides are responsible for:

- The pollution of the soils, of our water resources and the air
- The death of bees as well as the dying of hundreds of other living species
- Cancer, neurodegenerative diseases and infertility among Men.
